

Installation

How to install the Evaer Skype video recorder?

Installation instructions

Follow the steps below , It usually takes less than 2 minutes for you to begin recording skype video calls.

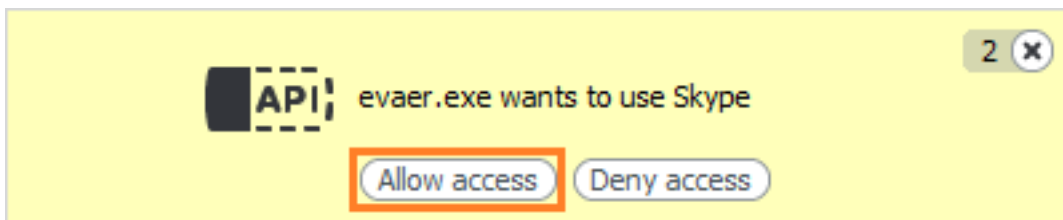

- Setp 1

Double click the EvaerSetup.exe file you have downloaded. Click the "Next" button in the window of the installation program until navigate to the last page.

- Setp 2

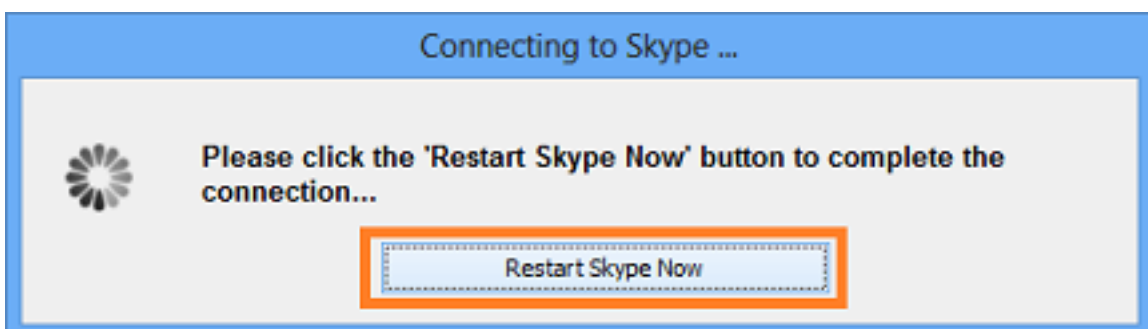

For the first time you start Evaer

a), Skype will ask you if Evaer is allowed to **access skype**(shown as the following image) if you use the **desktop of Skype version 7.x**. Please click the "Allow access" button when your Skype popup this message.

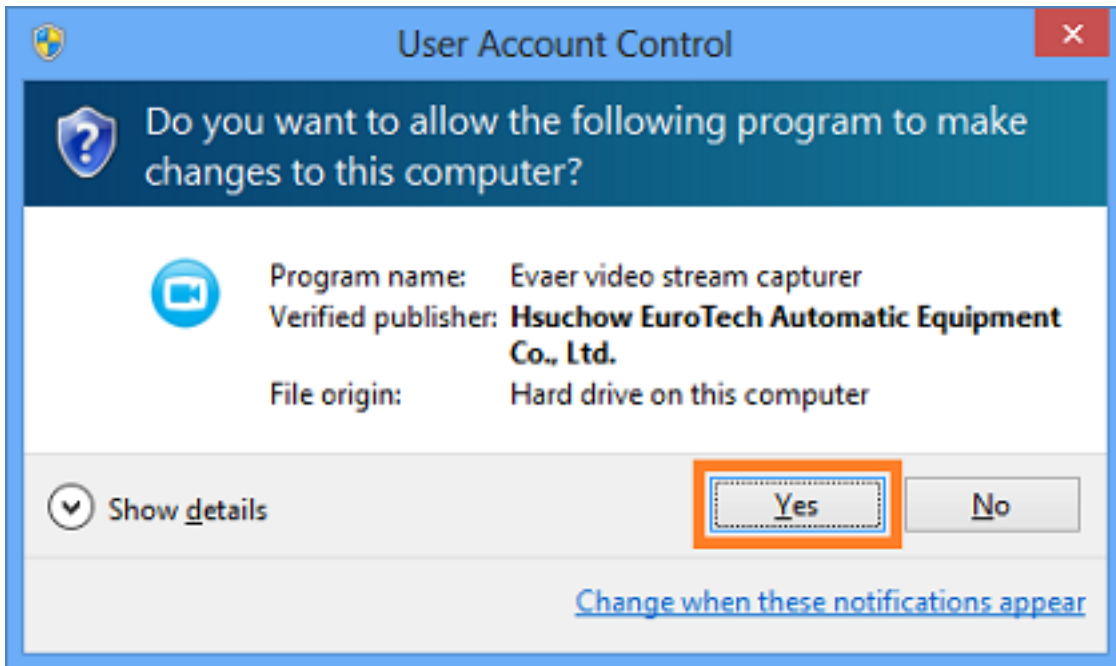

Notes:

- 1, Evaer will automatically connect to your Skype if you do not click the "Allow access" button within a few seconds.
 - 2, Please **skip this step** if you are using the **Skype UWP app** which from the Windows Store on Windows 10.
 - 3, Please **skip this step** if you are using the **Skype Version 8.x**.
- b), Evaer may prompt you to **restart your Skype**, please click the "Restart Skype now" button as below.

Installation

c), And please click the **Yes** button to allow Evaer to capture the Skype video stream if the below window popup.

- Setp 3

Place a Skype call and click the "Start Recording" button to begin your recording once the call is connected. Or enable [automatic recording](#) at Evaer settings.
