Functions

How to test video recording feature by myself?

1), Please click your Skype menu "Tools > Options" > "Video settings" button, you will see your video image, please keep the "Video settings" window opening (Like the image +1).

2), Place a call to echo123 (Like the image +2).

3), Please click "Start recording" button to record the video call after the call connected (Like the image +3).
